Welcome to the fifth reference of **Cicuta Netlabel**. Start a new year, a year full of good intentions and hopes renewed. In **Cicuta Netlabel** want 2012 to be our year, and it started with all the strength and power of one of the most established and influential artists of the global *dark-techno* scene, *the lord of the dark*, **Voidloss**.

Steve, like a kind of magician king, has given us 4 tracks potent, fast-paced, true to the style **Voidloss**, very atmospheric, somewhat harder perhaps than his later works. Tracks such trap you and take you on a mental journey until the last beat.

Of the 4 tracks that compose the EP, we can classify 2 as more "*trackers*" (*Purgatory Engine* and *Black Beltaine*) and 2 more "*mental*" (*Rtual at Château des Amerois* and *Continuum Mechanics*), so that all *dark-techno* lovers sure to find their favorite in the release.

As for the *remixers*, on the one hand we have *Rick Miller*, better known as **Systemic**, remixing the track *Black Beltaine*. Excellent artist and personal friend of **Voidloss**, is also *Duality Records* label owner, and has published in great labels such as *Labrynth*, *Subsist*, *UTCH* or *Trust*, being this his first release into netaudio world.

Finally, and as always, from **Drugstore** bring our usual remix, in this case of the track *Purgatory Engine*.

Relax, listen and enjoy. Welcome, this is **Cicuta Netlabel**.
