Welcome to the reference number 21 of **Cicuta Netlabel**. Summer is coming, and with it the season that many took the opportunity to relax body and mind. There is also the other side, people taking advantage of the summer to burn night and away from it. In this reference, the last of the 2012-2013 season, there are tracks for everyone, both for those who want to relax and those who want party.

We started the EP traveling to Lithuania with *Julita Stankevic*, better known as **Femii**, representing the first woman to publish on our label, which we like and we hope that in the future will become commonplace.

We continue our journey by visiting another country for the first time, Greece. There we met **Substak**, producer who seduced us with his techno with dub airs. After passing through many netlabels like *Dark Garden*, reaches **Cicuta Netlabel** to offer its quality.

We jump to the UK to introduce you to *Rick Canham*, alias **InSight**, an artist who has surprised us by their commitment to techno and quality.

Another artist who are visiting for the first time is Slovenian **Krzho**, a whole world wanderer netaudio. He features behind innumerable references in most netlabels worldwide. To cite a few, *Clear-Cut-Records*, *Bump Foot*, *inoQuo*, *Bleepsequence*,...

We continue traveling to Russia to present our latest discovery, **Artem Dultsev**. Maybe ist the track whose style is farther than we usually post, but after hear it, we could not pass the opportunity to share with you. Quality and subtlety in abundance.

Last but not worse, we present our latest work as **Drugstore**. Dark, powerful and focused on the dance floor, as we usually do.

Relax, listen and enjoy. Welcome, this is Cicuta Netlabel.
